

## **Trash and Recycling Collection Update**

Public Works is aware of all the missed stops and delays in trash and recycling collections. We are currently working closely with our collection vendor to try and get everything back on a normal schedule. We have been advised by Republic Services to have our residents put their material out this week on their normal collection day. They are working diligently to be completely caught up by the end of this week. We sincerely apologize for the delays and inconvenience and appreciate your patience during this time.
